## PRELIMINARY STATISTICAL SUMMARY OF 1998-99 COMMISSION GRANT PROGRAMS

---

Over 668,000 application records were received for Cal Grant aid for academic year 1998-99, as students sought to cover the increased costs of attaining higher education in California.

The Commission uses a series of edits to determine which applicant records should be entered into the Financial Aid Processing System (FAPS). These edits, referred to as pre-FAPS edits, include removal of duplicate applications, applications received after the deadline, applications that failed federal edits, and applications where financial data was not released to the State.

The total number of new 1998-99 Cal Grant applicants entered into FAPS after the pre-FAPS edits was 376,706, about 97,319 (35 percent) more than the 1997-98 level of 279,387 (see Table 1 and Figure 1). Of the 376,706 new Cal Grant applicants, 139,763 (or 37 percent) were needy and met eligibility requirements for at least one of the three undergraduate Cal Grant programs. This number is 30,696 (28

percent) more than the eligible applicant pool in 1997-98.

### **New Correction Process**

In 1998-99, for the first time the Commission, began allowing applicants to make corrections to the information they put on their Free Application for Federal Student Aid (FAFSA). Over 105,000 letters were sent to applicants notifying them of their initial disqualification from the Cal Grant competition and advising them that they had until May 15, 1998 to return a correction of their incorrect data to the Commission. Slightly over 12,194 students returned correction forms.

In addition to this correction process, the Commission sent notification to 51,567 applicants whose Institutional Student Information Record (ISIR) information did not contain an Expected Family Contribution (EFC). Of this number, 27,818 applicants returned a corrected Student Aid Report (SAR) and were reconsidered for an award.

<sup>1</sup> "Eligible applicant" indicates a student who has met eligibility criteria for at least one of the three Cal Grant Programs and has met minimum financial need criteria and income and asset ceilings. In 1993-94, 1995-96 and 1996-97 the eligibility criteria and edits were tightened, resulting in fewer eligible applicants.

Note: Eligible applicants are needy and meet eligibility requirements and income and asset ceilings in at least one Cal Grant program.

With all of the corrected applications back in the pool, the selection process was run with no change to the cut-off scores.

The Commission reserved 6,000 Cal Grants for the correction process. Of the reserved Cal Grants, 3,447 were awarded, 1,415 from the correction process and 2,032 from the blank EFC process. In order to allocate the remaining reserved awards, the Commission lowered the cut-off scores. A total of 6,198 Cal Grants were awarded after the completion of the correction process.

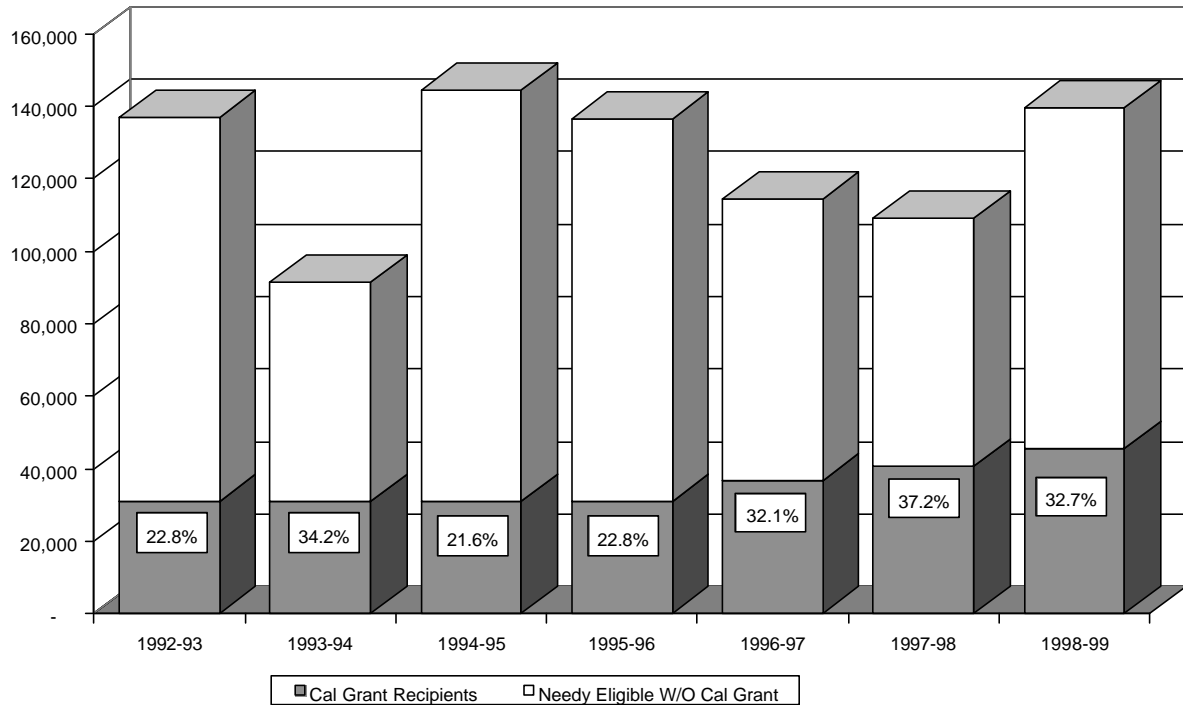

In addition to the reserved awards, the Commission received a budget augmentation that increased the number of new awards from 40,609 to 45,665. The Commission ran an additional award cycle in August 1998 to allocate the additional 5,056 awards.

#### **Financial Need Criteria for Cal Grant A**

Beginning in 1995-96, the Commission instituted a policy which required that eligible Cal Grant A applicants have financial need equal to the maximum segmental award plus an additional \$1,500. In prior years, need had to be equal to just the segmental maximum award.

Figure 2 compares the number of new Cal Grant applicants eligible to compete for at least one of the three undergraduate Cal

Grant programs with the authorized number of new Cal Grants (45,665). About one out of three applicants in this tightly restricted eligible pool received Cal Grant aid.

### GPA Verification Process

For the 1998-99 academic year, grade point average verifications were processed in the same manner as in 1997-98, wherein schools could submit electronic GPAs or students could submit a GPA form by the Cal Grant deadline.

A total of 716,833 GPAs (including duplicates) were submitted in 1998-99, over

84,000 (13 percent) more than the 632,701 submitted in 1997-98. This resulted in 140,000 GPA matches compared to 157,828 matches in 1997-98.

### Income and Asset Ceilings

All Cal Grant income ceilings increased for the 1998-99 academic year. For Cal Grant A and C, a family of three or fewer could earn up to \$53,100. Families of four could earn \$57,500, and families of five could earn up to \$61,900. Families of six or more could earn \$67,000, and still remain eligible.

The Cal Grant B income ceilings for

1998-99 follow. A family of five or more could earn a maximum of \$34,700; a family of four could earn up to \$31,499; a family of three could earn up to \$28,298; and a family of two could earn just \$25,097.

For all programs, single independent students could earn up to \$21,922 in 1998-99. Independent married students could earn up to \$25,097.

The maximum asset ceiling for most dependent applicants' families and independent applicants with children remained unchanged at \$42,000.

The asset ceiling for independent students without children was \$20,000.

### **Cal Grant C Application Process**

In 1996-97, Cal Grant C supplements were only sent to applicants who submitted verified GPAs or test scores. This change severely reduced the applicant pool and lowered the Cal Grant C score to 10. Although this programmatic change was kept in place for 1997-98, the Commission sent participating schools a list of students receiving supplements so that schools could encourage interested students to complete and return the Cal Grant C supplement. The result was a larger applicant pool and a cutoff score of 51.

To increase the Cal Grant C applicant pool, the Commission revised its Cal Grant C policy for 1998-99. All 1998-99 applicants who were ineligible for Cal Grants A and B but eligible for a Cal Grant C were sent a supplement. As a result, the Commission sent out over 30,000 supplements, an increase of 20,000 over 1997-98, and received over 12,000 completed forms. Consequently, the cutoff score for 1998-99 rose to 85.

### **Cal Grant T Program**

In 1998-99, the Cal Grant T program was established to cover the tuition and fee costs of obtaining an initial teaching credential for California residents with baccalaureate

degrees. The Governor's Budget allocated \$10 million dollars to cover up to 3,000 one-year grants.

### **Graduate Fellowship Program**

The Graduate Fellowship program did not receive funding for new applicants in 1998-99, although 532 renewal recipients received continued benefits. The newly established Graduate Assumption of Loans Program replaced the Graduate Fellowship program.

### **Assumption Program of Loans for Education (APLE)**

The APLE program received a substantial increase in award allocations for the 1998-99 academic year. The passage of Senate Bill 1564 expanded the program from 500 warrants to 4,500, including 500 warrants to be used to recruit out-of-state teachers. The bill also changed the length of the teaching commitment from three to four years and increased the loan assumption amount from \$8,000 to a total of \$11,000.

The Commission has currently awarded 2,821 warrants to applicants from participating institutions with teacher preparation programs and will continue to accept applications for the 1998-99 academic year until all 4,000 in-state warrants have been issued.

### **Graduate Assumption Program of Loans for Education (Grad APLE)**

The Graduate APLE program provides loan assumption benefits of up to \$6,000 to recipients who provide three years of service as a full-time faculty member at a California college or university. The Commission is authorized to make up to 500 awards each academic year. The Commission has currently issued 114 warrants from the 124 applications it received for the 1998-99 academic year.

### **Robert C. Byrd Honors Scholarship**

The Robert C. Byrd Honors Scholarship is a federally funded program that provides an

annual award of \$1,500 for up to four years of undergraduate study. In 1998-99, 795 of the 1,501 new applicants for the Robert C. Byrd Honors Scholarship program received an award.

### Child Development Grant Program

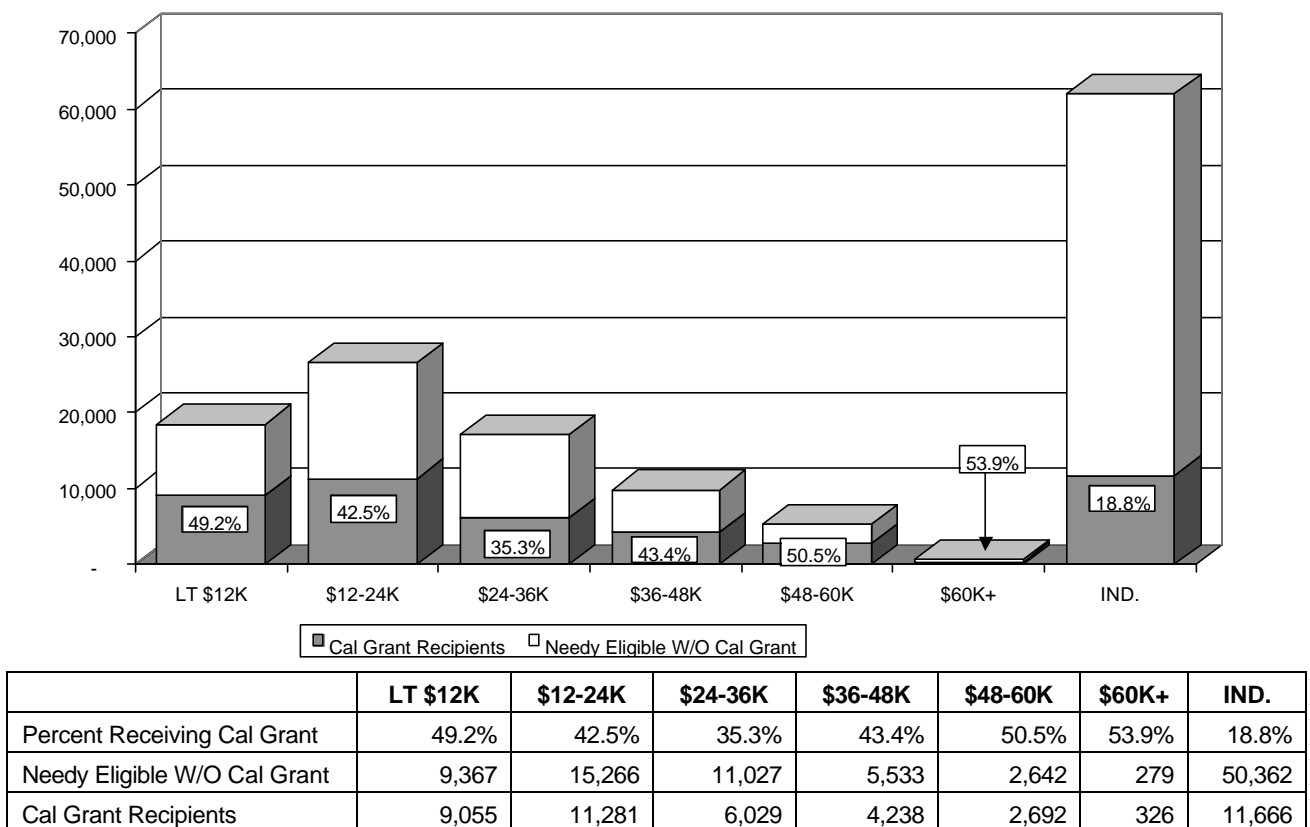

The Child Development Grant Program targets students who intend to teach or supervise in the field of child care and development. Recipients at two year institutions receive up to \$1,000 per academic year and those at four year institutions receive up to \$2,000 per year. All recipients must agree to provide one full year of service in a licensed child care center for each year they receive the grant.

For the 1998-99 academic year there were 156 applicants for the Child Development Grant Program. Of those, 102 received awards.

### Law Enforcement Personnel Dependents

The Law Enforcement Personnel Dependents Grant Program (LEPD) is designed for dependents or spouses of peace officers, corrections or youth authority officers, and firefighters who were killed or totally disabled in the performance of duty. For the 1998-99 academic year there were six new and eight renewal LEPD recipients.

**FIGURE 3**  
**ELIGIBLE NEW CAL GRANT APPLICANTS AND RECIPIENTS,**  
**BY DEPENDENCY STATUS AND PARENTAL INCOME**  
**And Percent Receiving Cal Grant Aid**

### Needy Cal Grant Applicants Compared to Number of Awards

The percentage of needy, eligible applicants who received Cal Grant aid varied significantly by income. Figure 3 shows that

financially dependent applicants at the very bottom of the income distribution were more likely to receive Cal Grant aid than those with parental incomes from \$12,000 to \$36,000. While the numbers are very small, needy applicants in the \$60,000 and above range are also more likely to receive aid than those in the middle income ranges.

Figure 3 illustrates the breakdown of eligible dependent applicants versus awarded dependent applicants, based on family income ranges. Just over 49 percent of applicants from families with incomes of less than \$12,000 received awards; 42.5 percent of applicants from families with incomes in the \$12,000 to \$24,000 range received awards; 35.3 percent of applicants from families with incomes in the \$24,000 to \$36,000 range received awards; and 43.4 percent of applicants from families with incomes in the \$36,000 to \$48,000 range received awards. Over half of those whose parents earned more than \$48,000 received a Cal Grant. Only 18.8 percent of independent applicants received Cal Grant aid.

These variations are the result of the GPA selection criteria in Cal Grant A, as well as the Cal Grant B scoring system which takes into account the applicant's income, family size, family background, and GPA.

### New Cal Grant Award Maximums

For 1998-99, the State funded an \$852 increase in new Cal Grant tuition and fee award maximums for Cal Grant A and B recipients at independent institutions and private career colleges (proprietary), from \$8,184 to \$9,036 (see Table 2). Due to a five percent tuition and fee reduction at the UC and CSU, award maximums were reduced to \$3,609 and \$1,506 respectively. Cal Grant B subsistence awards, Cal Grant C tuition and fee maximums, and book and supply allowances remained unchanged.

### **Grade Point Average and Score Cutoffs**

As a result of the Governor signing legislation (SB 2064, Statutes of 1998), in 1998-99, for the first time, the Commission awarded Cal Grant A and B according to the new cut-off policies. Those policies require that scores for recipients be no more stringent for community college transfer students attending a four-year institution than for first time freshman.

Cal Grant A applicants planning to be college freshmen or junior transfers needed a 3.15 GPA to receive an award in 1998-99. Applicants planning to be college sophomores or non-transferring juniors needed a 3.38 GPA to receive an award (see Table 3).

The cutoff score for first year Cal Grant B applicants planning to attend a community college as freshmen was 50 for the 1998-99 academic year; the cutoff score for applicants planning to attend four-year colleges as freshmen was 60.

As a result of the processing changes described in the section on the Cal Grant C Application Process, Cal Grant C scores have varied from year to year. In 1998-99, the cut-off score was 85.

### **Segmental Breakdown of New Cal Grant Recipients**

From 1997-98 to 1998-99, the percentage of new Cal Grant A recipients attending the California State University fell slightly from 28.6 percent to 26.2 percent, while those attending the University of California rose from 36.6 percent to 38.6 percent (see Tab 2, Table 2 in the "Preliminary Grant

Program Statistics"). The proportion attending independent colleges and universities increased slightly from 29.9 percent to 30.3 percent.

A programmatic provision of the Cal Grant B program requires that at least half of new Cal Grant B recipients attend community colleges. This necessitates a separate applicant pool and point cutoff for two- and four-year students. In 1998-99, 53.7 percent of new recipients attended community colleges, 17 percent attended the University of California, 24.7 percent attended a California State University campus, and 2.9 percent attended an independent institution.

For academic year 1998-99, 60.2 percent of Cal Grant C recipients attended the community Colleges, a 13.6 percent increase from 1997-98. Approximately 10.7 percent attended an independent college or university, and 28.9 percent attended a private career college (proprietary), a 15 percent decrease from 1997-98.

Copies of the complete 1998-99 "Preliminary Grant Program Statistics" are available through the Commission's Policy and Communications Division staff at (916) 526-7991.
